

# Surf 'N Stuff 'N Tips

## GET A CYBER MAKEOVER

Seems you can't flip a channel on television without landing on a makeover show. If you ever wondered what you'd look like with some tweaking, a fascinating site awaits you.

The **Perception Laboratory's Face Transformer** changes the age, race or sex of your uploaded photo.

All you need is a **640 by 480 pixel image** in either a **jpg or gif format** and a Java-enabled browser.

Upload your photo to the site, click on the drop-down menu and "**pick your peeps.**" Or go extreme and transform your image into a funny caricature or classic art style.

While not a detailed nip and tuck, you do get back overall "morphs" quite quickly.

Come on and give it a try... its fun to see what you could look like!
