Laguna Woods, CA

... and a **HEALTHY,**
HAPPY NEW YEAR
to **ALL!**

GENERAL MEETING

January 16, 2006
Clubhouse 3, 6:30 p.m.

GOOGLE UPDATE

Last January, Norm Salzberg demonstrated many of Google's features.

Since then Google has added software for searching personal computer files, Google Desktop; an e-mail service with 2 Gigabytes of storage, Gmail; maps; satellite images, Google Earth; instant messaging, Google Talk; blogging tools; a service for posting and sharing digital photos, Picasa 2; specialized searches for news, video, shopping and local information; and Google's most controversial venture, Google Print.

In January, 2006, Norm will bring you up-to-date with Google's latest features.
