

## YEAR END MESSAGE (CONTINUED)

- shop Supervisor, and shares her experience with many other community organizations.
- **Anne Clark:** Anne built our club website: <http://www.lwpcug.com>; the easy-to-navigate site is the prime on-line resource of information about our club activities. Members save lots of calls and trips to the Workshop by checking information on education classes, SIGs, Programs, Workshop hours, etc. Additionally, Anne has introduced a variety of special website features for members. She has also entertained and informed us with her SIGs and Programs on eBay. Finally, she also serves on the Mac Club board, giving us insight into another computer club's operations.
- **Burt Goldstein:** Burt is a long time member of our club, and has recently been reappointed to the Board. As past president of the Camera Club, Burt shares his experience with community and club operations. Further, he shares his talents, presenting SIGs and Programs for our education and enjoyment. Burt is also a Lead Workshop Supervisor.
- **Kaye Hammerman:** Kaye has the most challenging task on the Board—managing our Education Program. Her responsibilities include: building, maintaining, and scheduling a series of computer classes, year around, to meet the needs and interests of our members; recruiting a staff of qualified teachers and teacher's assistants (all from our PC Club membership), maintaining teaching materials for uniformity in the program; registering class members; and managing our Learning Center facility. Additionally, she organizes and manages our Special Interest Group Sessions (SIGs) - consistently arranging a wide variety of topics to cover all interests. Finally, Kaye assists in Publicity, writing the PC Club news column for the LW News, producing Program fliers for distribution on the clubhouses, and scheduling our Program presenters for interviews on TV 6.
- **Robin Nahas:** Robin is a long time worker in our club and our community. In addition to serving as a Workshop Supervisor, she has worked as a teacher's assistant, and has presented SIGs. After helping Greta Wacker, our previous Membership Chairman, Robin is our new Chjairman, and is now a member of our Board. She also works in other community functions, and shares this experience in Board issues.
- **Norm Salzberg:** Norm manages the Workshop, one of the fundamental services of our club. Managing the Workshop encompasses ensuring that equipment is current and operational, and that all sessions are staffed with Supervisors and Greeters. The Workshop is open all year, and has served over 30,000 community visitors this year. Additionally, Norm teaches the popular internet/Email class and the monthly Internet/Email SIG. Somehow, Norm also finds time to write a column "Joy of Computing" for the LW News.
- **Joe Schwarz:** As Past President, Joe serves on the Board until a new President is elected. This policy was written into our By-Laws to enable the club to take full advantage of the previous president's experience. Joe has fulfilled this role, and as an active member in the community is a special resource to the Board.
- **Kathryn Taylor:** Kathy is a teacher's assistant and has worked with multiple classes. She also assists with membership tasks, new membership meetings, and SIGs, and helped plan our successful 40th anniversary booth. Kathy is a uniquely helpful member of our Board—you will not see her on the stage, but she is an excellent assistant—always there, and taking the initiative to get things done. Further, in Board meetings, when action lags, Kathy steps in and gets the Board moving. She is an uncommon asses to the Board.
- **John Trask:** Unless you arrive very early, you've probably not noticed John—but he is a fundamental contributor to our successful daily operations. In addition to the regular tasks associated with upgrading our facilities, computers, operating systems, applications, and virus protections, John also takes care of all of our daily office operating materials. He does these tasks responsibly, while ensuring an adequate inventory of critical daily needs. John also works in other areas of the community, giving us the benefits of his experience.

It has been my pleasure to work with these people and have their support. Without their effort and dedication, all of the achievements listed earlier would not have happened. To be sure, there are many others who support the Club - and need to be recognized. All of the above members, however, are elected by the membership, and I strongly urge your support in helping us keep this strong, stable and dedicated Board.

Your President, Roger
