HOW TO: SAVE MONEY ON INK FIX A CLOGGED PRINTER AND MORE!

Presented by
Cynthia Hunter
Of **THE INK DOT**

Accomplished author, actress, educator and successful business owner, with a decade of experience in the ink business, Cynthia's main subject is how to refill printer cartridges and unclog any printer that isn't working right. We all know cartridges are expensive and if you can learn how to fill them easily without spilling ink everywhere, it will mean big savings. She will introduce her product line of inkjet cartridges, specialty photo papers, do-it-yourself laser toner refill kits and continuous flow ink systems. This system works beautifully for anyone printing out lots of digital photos.

Cynthia will also present computer tutorial CDs that are the best training tools she has ever seen and are sold nationwide at CompUSA and Border Bookstores. Each CD contains over 100 mini-movies to teach a new technique. People who try these CDs report “it is like having an instructor sitting right next to you.” She will offer these at a special club price!

Her presentation is not only loaded with useful information, but you will be dazzled, entertained, and charmed by her Hollywood personality. This is one meeting you won't want to miss.
