Monday, SEPTEMBER 19, CH#3 at 6:30 pm

Using the Internet for Travel

At our September meeting, a representative from Town Centre Travel will present a program on how to use the Internet for travel information.

Today, with an ever increasing amount of travel information available on-line, it is possible to review information about venues around the world that you might like to consider – including the services and schedules that different companies offer, special features and characteristics of the locale at different seasons of the year, and the cost and availability of tours, transportation, and lodgings. Further, in appropriate cases, you will learn how you make your reservations on line. Additionally, you will learn how you can use the Internet and also work most effectively with your travel agent.

The Internet offers everyone the opportunity to research information and get answers quickly about vacation places all over the world, to communicate with organizations via email, and to make reservations with immediate confirmation.

Join us on September 19th to learn how you might more effectively use your computer and the Internet to learn about and plan new travel experiences.

NOTICE OF NONDISCRIMINATORY POLICY AS TO STUDENTS: The LWPCUG Justin Webb Learning Center admits students of any race, color, national and ethnic origin to all the rights, privileges, programs and activities generally accorded to students at the Learning Center. It does not discriminate on the basis of race, color, national and ethnic origin in administration of its educational policies, admissions policies or other programs.
