

PC Club's Summer School Session: June/July 2018

Google Photos

Mondays, 10AM – 12N: 3 weeks

Instructor: Joel Goldstein

Course begins June 25th and ends July 9th

\$25.00; Members - \$15.00

In the years since Google's Photos app replaced Picasa, numerous improvements and enhancements have made it an even more dynamic and exciting experience. . . and it's still FREE! Learn how to use Google Photos to organize, store, retrieve, edit, and share your photos. While the link between it and Picasa is gone there are still ways to move your photos from Picasa to Google Photos. This course covers working with photos from a digital camera, tablet or phone. The Instructor was an early adapter to Photos and has pretty much mastered its features. Take this class – he will be sharing his knowhow and experiences with you.

Prerequisite: adequate PC skills and knowledge of the Windows OS. *This is not a suitable Course for computer beginners.*

DIY: Computer Maintenance

Tuesdays, 10AM – 12N, 2-3 weeks

Instructor: Yori Neumark

Course begins June 26th and ends either July 3rd or 10th

\$25.00; Members - \$15.00

This course is geared to Windows 10 users and intended to reduce or prevent your frustration with your computer system and to save you costly repair bills. It includes online safety/privacy, simple steps to back up important files, examine and analyze a computer and (possibly) speed up a slow computer. Also covers how to deal with freeze-ups and other problems, including balky printers and restoring lost internet access. Downloading and installing free cleanup, anti-virus and anti-malware programs will also be demonstrated and explained.

Prerequisite: good working knowledge of Windows 10 (preferably) *This is not a suitable Course for computer beginners.*

Intermediate Windows 10

Thursdays, 10AM – 12N: 3 weeks

Co- instructors: Jack Schnabel and Bob Sellards

Course begins June 28th and ends July 12th

\$25.00; Members - \$15.00

As we approach the 3rd anniversary of the release of Windows 10, ask yourself – are you getting enough “bang for the buck”? Over time Microsoft has added - or altered - numerous features to improve and enhance our computing experiences. If you’re not sure you’re employing, and enjoying, this best-ever version of Windows to the max, take this course and see what you may have been missing. We will review the fundamentally different structure of Windows 10 and share the newest features and benefits, as well as show you tips and tricks which may greatly improve your computing knowledge and productivity.

Prerequisite: comfortable level of PC skills and familiarity with the Window 10 OS.
This Course is not suitable for computing Beginners.
